Find all the books, read about the author, and more. This is the first volume in a new three-volume history of the University Press. From the origins of the Press through to the end of the seventeenth century, this volume explores the University's attitude to its Printers, the books printed, and the circumstances in which they worked. It deals not only with University printers and their work but also with the seventeenth-century book trade as a whole: in Cambridge, London, continental Europe and North America. Product details. Although there was, briefly, a press at Cambridge in the early 1520s, the origins of the modern University Press spring from a charter granted to the University by Henry VIII in 1534, to provide for printers who would be able to work outside London and serve the University. In the event no book was printed until fifty years later, but from 1583 to the present the line of University Printers stretches in unbroken succession.
