Like Oxford Companion to Australian Literature provides a concise but comprehensive account of Australian writing from the first settlement in 1788 to the early 1980s. Central to the book are the alphabetical entries on authors and literary works, and clearly there has been selection and weighting in the preparation of these entries: not every Australian author has been included, and some have been discussed in far greater detail than others. In a work of this scope and magnitude it is inevitable that we have been much indebted to the work of others, ranging from standard reference works such as E. Morris Miller's bibliography of Australian literature and the Australian Dictionary of Biography to specialist studies of individual authors.
