Want to Read saving… Importantly a number of readings will also be given critical of the approach Christian Approaches to Other Faiths is divided along the same lines as the textbook(9780334041146). In the first section, readings are divided according to the sub-sections, providing at least one reading for each, with those paradigms which have been more influential, receiving most attention. Importantly a number of readings will also be given critical of the approach in question. The second section contains at least two readings per section, both adopting a different way of understanding that faith. Sam Harrisâ€™ first book, The End of Faith, ignited a worldwide debate about the validity of religion. In the aftermath, Harris discovered that most people from religious fundamentalists to non-believing scientists agree on one point: science has nothing to say on the subject of human values. Biocentrism awakens in readers a new sense of possibility, and is full of so many shocking new perspectives that the reader will never see reality the same way again. Famine, Affluence, & Morality, Peter Singer. There are many other fantastic books and writers that Christians should read to get accustomed and recognized with the Atheist framework. For now, I think this could be enough. Let me finish this with a quote by Peter Singer on the significance of the Atheist framework
