
Resource Conserving Agricultural Practices for Ecological Sustainability and Land Use Efficiency Conference scheduled on August 23-24, 2021 in Rome is for the researchers, scientists, scholars, engineers, academic, scientific and university practitioners to present research activities that might want to attend events, meetings, seminars, congresses, workshops, summit, and symposiums. Events will run over a span of time during the conference depending on the number and length of the presentations. With its high quality, it provides an exceptional value for students, academics and industry researchers. ICRCAPESLUE 2021: 15. Agricultural conservation programs agroforestry conservation planning design process Illinois interview landowner landscape multifunctional. Type. Research Paper. Information. Renewable Agriculture and Food Systems , Volume 35, Issue 3, June 2020, pp. 313-321. Compensating Landowners for Conserving Agricultural Land U.C. Davis Community Studies Extension, Davis, CA. pp. 123â€“132. Google Scholar. Johnson, KA, Dalzell, BJ, Donahue, M, Gourevitch, J, Johnson, DL, Karlovits, GS, Keeler, B and Smith, JT (2016) Conservation Reserve Program (CRP) lands provide ecosystem service benefits that exceed land rental payment costs. Agro-industrial complex of our country has huge potential for agriculture development providing that there is effective regulation of land relations, and efficient, scientifically based land use focused on preservation, maintenance, and boost of the most valuable land property soil fertility. Sustainable social and economic development of Russia is impossible without the efficient use of agricultural land. It is the key element in ensuring of food security, which is one of the major components of the national security, incremental growth and development of the economy, and which is the way of life and the means to improve the quality of life of a large portion of the home population.
