Mizutama Honey Boy Manga: Mei Sengoku is an independent girl and captain of her high school kendo club who enjoys helping others in need. This has earned her a lot of admirers among the girls at her school, as well as a guy named Shirou Fuji well-known at school for his girly way of speaking and gestures. When Shirou asks Mei to go out with him, she simply rejects him, but he comes back the next day and tells her he's not going to give up on her so easily. In Tunomas Honey (1981) by Jim Sagel, the author returns to his native Espanola in northern New Mexico. Many of the stories in this collection, set in and around Espanola, explore the traditional Hispanic culture of this area and the changes it undergoes with the changing lifestyle of the younger generations.
