Context in Language. Glossary of Grammatical and Rhetorical Terms. Share. According to the book, "Rethinking Context: Language as an Interactive Phenomenon," "Recent work in a number of different fields has called into question the adequacy of earlier definitions of context in favor of a more dynamic view of the relationship between linguistic and non-linguistic dimensions of communicative events. Instead of viewing context as a set of variables that statically surround strips of talk, context and talk are now argued to stand in a mutually reflexive relationship to each other, with talk, and the interpretive work it generates, shaping context as much The situational context refers to the context in which "people know about what they can see around them," the background knowledge context refers to the context in which "people know about each other and the world", and the co-textual context refers to the context in which "people know what they have been saying" [6] Similar to Patridge's definitions of context, Hayland. The communicative purpose of an utterance would be determined by contexts and, therefore, the theory of contexts can be applied for explanations of language uses in terms of pragmatic perspectives [8].

Investigation of Students' toward Environmental Awareness through Responses of Caring Speech Acts: A Case Study of Polytechnic's Student in Surakarta, Indonesia. This book has been around for nearly a whole generation now and is considered the holy grail on Foreign Language Teaching since its first edition in 1993, yet as a reader I could not help noticing the excessive number of references interrupting the flow of the text and the author's thoughts. It would have been better if these references had been included as end notes. So I bought Teaching Language in Context, and am very glad I did. Read more. 3 people found this helpful. This contextual use of language is what makes language unique to humans. Context means a variety of things. Context can be linguistic, involving the linguistic environment of a language item, as well as situational, involving extra linguistic elements that contribute to the construction of meaning. Linguistic context. Linguistic context or verbal context refers to the linguistic environment in which a word is used within a text. In other words, to determine the meaning of an item, it is n
